PROFESSIONAL SUMMARY

Senior Full-Stack Engineer and Technical Lead with 4+ years of end-to-end ownership across production-grade platforms in medical, e-commerce, and social sectors. Independently architects, deploys, and secures complete cloud infrastructure alongside full application development from codebase to server hardening to live intrusion prevention in regulated environments. Known for delivering complex systems under pressure, leading developer teams, and taking full ownership without oversight. M.Eng. Cyber Security. Native Arabic speaker. immediately available.

PROFESSIONAL EXPERIENCE

Senior Full-Stack Engineer & Technical Lead

June 2024 – Present

Perinatal Tıp Vakfı

Istanbul, Türkiye

- Sole engineer responsible for architecture, development, and infrastructure of multiple concurrent production platforms sustaining high availability and consistent performance growth across a clinical user base.
- Owned complete server security in production: configured firewalls, deployed Fail2Ban intrusion prevention, and actively monitored and neutralised live SSH brute-force and DDoS threats in real time.
- Built and led a team of 10 developers established code standards, CI/CD pipelines with Docker, and automated testing workflows, measurably improving delivery speed and release quality.
- Designed HIPAA-aligned databases and data pipelines ensuring privacy, compliance, and high availability in a regulated medical environment.

Lead Full Stack Developer (Contract)

February 2024 – June 2024

PuzzMeta Co.

Tekirdağ, Türkiye

- Delivered end-to-end features across API design, database optimization, and responsive frontend within a focused contract engagement, visibly improving application performance and user satisfaction.
- Led agile sprints and mentored 3 junior developers, maintaining code quality standards while accelerating feature delivery.

AWS System Administrator

January 2022 – August 2022

Sufle lo

Istanbul, Türkiye

- Designed secure multi-application AWS infrastructure with high database availability across 10+ applications; automated provisioning via CloudFormation and CDK, significantly reducing deployment time and infrastructure costs.
- Implemented Conagilience-aligned cybersecurity measures reducing production vulnerabilities; progressed from mentee to key infrastructure contributor within months.

TECHNICAL SKILLS

Frontend: Next.js, React.js, Nuxt.js, Vue.js, React Native, Expo, TypeScript, Tailwind CSS, Framer Motion, Redux, Zustand, Jotai, Pinia, Shadcn UI, Radix UI

Backend: Node.js, NestJS, GoLang, FastAPI, GraphQL, GraphQL Gateway, tRPC, Express.js, Bun.js, Laravel

AI & Data: AI SDK (multi-provider), LangChain, Gemini, OpenAI, Anthropic, scikit-learn, pandas, FastAPI LLM Pipelines, Kafka, Elasticsearch

Databases: PostgreSQL, MongoDB, MySQL, Redis, Prisma, SQLModel, Supabase, Firebase

Cloud & DevOps: AWS (EC2, RDS, S3, Lambda, Lightsail, Load Balancers, Route53, CloudFormation, CDK), Docker, Terraform, CI/CD, Git

Security & Systems: Linux Server Administration, Firewall Configuration, Fail2Ban IPS, Network Security, HIPAA Compliance

SELECTED PROJECTS

E-Commerce Platform (Independent) | Next.js, Node.js, GraphQL, React Native, FastAPI, Kafka, Elasticsearch, AWS, Docker

- Sole architect and developer of a cross-platform shopping system designed to handle real-scale commerce with LLM-powered product recommendations, Kafka event-driven order processing, Elasticsearch search, and fully self-managed AWS infrastructure.

Graphly (Independent) | Next.js, FastAPI, scikit-learn, pandas, AI SDK, SQLModel, PostgreSQL, Chart.js, Stripe, TypeScript

- Sole architect and developer of an AI data analytics platform built to make machine learning accessible without code users upload datasets, run exploratory analysis, train and evaluate models, and receive multi-provider LLM-generated insights, all within a Stripe-billed SaaS product.

Medical Social Platform (Independent) | Next.js, GoLang, GraphQL Gateway, PostgreSQL, Kafka, AI SDK, Docker

- Sole architect and developer of a microservices-based professional network for medical practitioners built with a GoLang GraphQL gateway for service orchestration, Kafka-driven real-time feeds, and AI-assisted content moderation to ensure clinical-grade reliability.

Media Medicine (Perinatal Tıp Vakfı.) | Next.js, GraphQL, PostgreSQL, Nexus, Zustand, AWS

- Lead engineer and infrastructure owner of a production medical social network serving clinical users personally responsible for all development, server security hardening, Fail2Ban intrusion prevention, and AWS infrastructure management.

Learnr (Independent) | React Native, React.js, LangChain, FastAPI, Supabase, TypeScript

- Sole architect and developer of a cross-platform e-learning application designed to personalise education through AI featuring LangChain-powered tutoring, real-time progress tracking, and a serverless FastAPI backend serving both web and mobile.

EDUCATION

Kadir Has University <i>Master of Engineering (M.Eng.) – Cyber Security</i>	Istanbul, Türkiye <i>October 2022 – October 2023</i>
Kadir Has University <i>Bachelor of Engineering (B.E.) – Computer Engineering</i>	Istanbul, Türkiye <i>October 2018 – September 2022</i>

ACHIEVEMENTS & CERTIFICATIONS

3rd Place, University Software Project Competition Faculty of Computer Engineering Placed 3rd among 30+ competing teams; built a cloud-based application with AWS, React.js and Laravel.	May 2023
Sufle Academic Excellence Award & Dean’s List Kadir Has University Awarded scholarship, mentorship and internship at Sufle Io; maintained GPA in top 5% of faculty.	2022 – 2023
Conagilience Cyber Resilience Foundation TACAS Consulting, ID: CCRF6E81A5C28F8F	December 2022
AWS Cloud Development Certificate Sufle Io	June 2024

LANGUAGES

Arabic (Native) English (Fluent) French (Professional) Turkish (Professional) German (Intermediate)
